

PERMA “R” PRODUCTS®

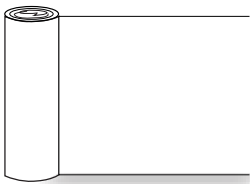

WE’VE GOT YOU COVERED

Complete Building Envelope System

Builders know that every detail matters. Choosing compatible wall envelope products is vital to ensuring your building has the maximum level of defense against exterior moisture penetration. Perma “R” Products’ complete building envelope system optimizes your building’s weather resistance capabilities by selecting products engineered to work together.

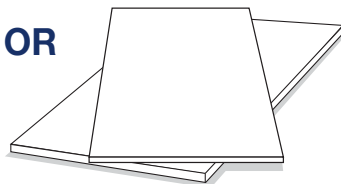

1 Select Your Weather-Resistant Barrier

Perma “R” Products® Building Wrap

Advertise your brand
with custom print
building wrap.

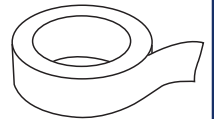

OR

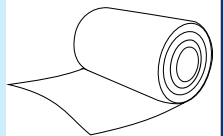

Perma “R” Brace™ Perma “R” Brace™ SIB

Use Perma “R” Brace Guard
and Perma “R” Brace SIB
Guard for a continuously
insulated corner solution.

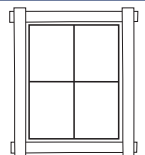

2 Select Your Construction Tape

3 Select Your Roof Underlayment

4 Select Your Flashing

BUILDING WRAP

MOISTURE PROTECTION

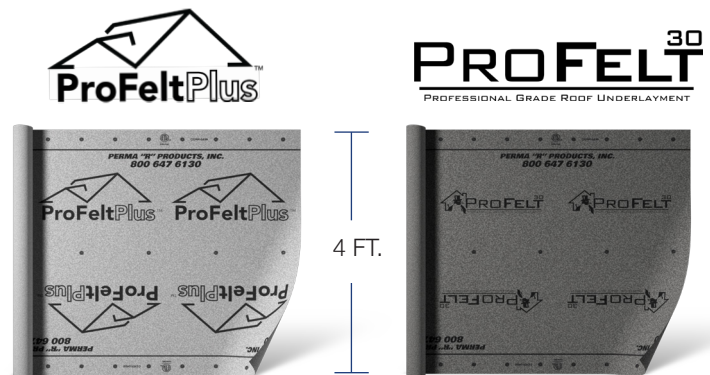

- Woven polypropylene, microperforated fabric
- 12–15 US perm rating
- Semi-translucent and lightweight for easy installation
- Up to 6 months of UV protection
- Upgrade to PermaWrap for increased durability with higher tensile and tear strength

- Non-woven, non-perforated polypropylene, breathable material with CLAF mesh multi-directional drainage plane
- Available in Low Perm (15 Perms), High Perm (55 Perms) and Commercial (35 Perms)
- Lightweight for easy installation
- Up to 6 months of UV protection

UNDERLAYMENT

- Non-woven, durable, lightweight synthetic roof underlayment
- ≤ 1 permeability for superior moisture resistance and protection against water infiltration
- Improved UV resistance
- For use under asphalt, synthetic, metal, tile, and shake shingles
- Products in compliance with the Florida Building Code 7th Edition (2020)

CUSTOM PRINTED HOUSE WRAP & UNDERLAYMENT

In construction, house wrap and underlayment can sit exposed on a job site for an extended period of time. How many people do you think pass by and glance at it? A lot, that's how many! Take full advantage and advertise your brand while construction is underway with custom logo printing by Perma "R" Products.

Please reach out for more information including options, minimums and pricing.

RIGID FOAM BOARD

EPS & GPS INSULATION

PolyPro™

- Rigid, closed-cell expanded polystyrene insulation (EPS), provides PERMANENT, long-term, thermal performance, R3.85 per inch
- Exterior, interior, below-ground applications
- Available in either metal-poly faced for improved thermal performance, poly-poly faced, and unfaced options

- Graphite polystyrene insulation (GPS) provides PERMANENT, long-term, thermal performance, R5 per nominal inch
- Choose from **Exterra®**, perforated for exterior applications; **Interra®**, reflective, non-perforated for interior applications; **Subterra®** for below ground applications; and/or **Chrome**, unfaced.

PERMA "R" BRACE™

LIGHTWEIGHT STRUCTURAL SHEATHING BOARD

Perma "R" Brace

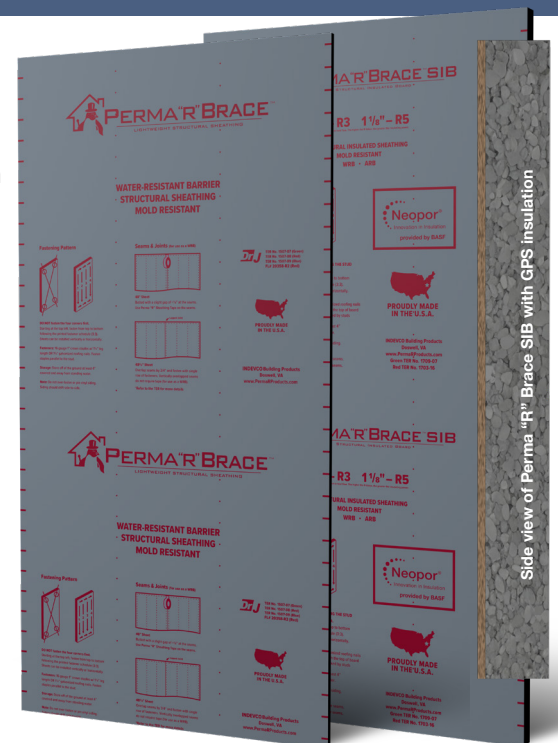

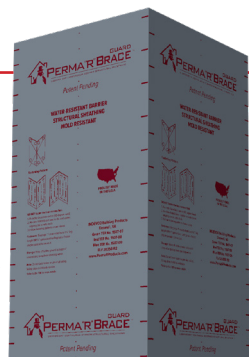

- 2-in-1 structural sheathing, continuous air barrier and integrated water resistive barrier.
- Printed nail patterns for ease of installation
- Higher shear strength than OSB at 1/3 of the weight for one person install
- Mold resistant
- Available in 3 grades: Green, Red, and Blue

Perma "R" Brace™ SIB

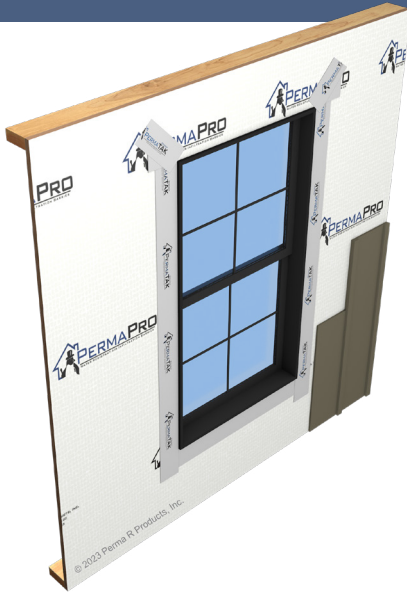

- All-in-1 structural sheathing, continuous air barrier, integrated water resistive barrier, and built-in continuous insulation.
- All the benefits of Perma "R" Brace with the added benefit of GPS rigid insulation available in two 2021 IECC energy code options, R3 or R5

Perma "R" Brace™ GUARD & GUARD SIB

Patent-pending Perma "R" Brace GUARD is an energy-efficient, structural sheathing that wraps around the corner of a structure, creating a complete enclosure that joins two separate walls into one continuous unit, while providing structural, WRB corners and eliminating the need for corner flashing, saving time and money for builders, architects, contractors, and homeowners.

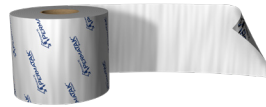

DON'T FORGET THE TAPES

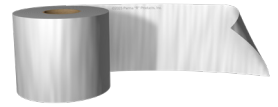

PermaTAK™ Straight Flashing Tape

- Provides permanent weathertight seal on most common building materials
- Slow acting adhesive for easy repositioning
- Excellent cold temperature adhesion
- Self-healing after puncture
- Compatible with sealants and caulking
- Free of asphalts, VOCs, and solvents
- Meets AAMA 711
- Used properly, can contribute toward requirements for EA Credit 1 (Optimize Energy Performance under LEED)
- Easy to remove release liner

ProTAK™ Stretch Flashing Tape

- Stretches more than double to conform to curves and corners eliminating need for corner flashing patches at window sides
- Slow acting adhesive for easy repositioning
- Superior adhesion to wood, aluminum, vinyl, rigid board insulation, and other common building materials
- Easy to remove release liner
- Self-healing after puncture
- Compatible with sealants and caulking
- Free of asphalts, VOCs, and solvents
- Meets AAMA 711

SHEATHING TAPE

CONTRACTOR PRO GRADE

- Contractor PRO grade, multi-purpose, flexible polypropylene sheathing tape
- Provides superior sealing where needed with construction air, water, and vapor materials
- Tearable by hand for easy installation

Perma "R" Products

Perma "R" Products Manufactures
High-performance Building Envelope Products.
